ABOUT ME

Motivated AI & Data Science undergraduate with hands-on experience building computer vision models and full-stack applications. Proficient in Python, machine learning, and data visualization. Completed 2 internships delivering production-level AI and dashboard solutions. Certified in Oracle SQL, Python (HackerRank), and Google Gemini AI. Seeking an ML/AI Engineer role to apply skills in model development and intelligent system design.

EXPERIENCE

Software Developer Intern, Kaspon Techworks Private Limited

11/2025 – 12/2025

- Developed a computer vision model to automate car damage detection and severity classification, reducing manual inspection effort by an estimated 60%.
- Trained and evaluated deep learning models on a labeled image dataset of 500+ vehicle images, achieving ~85% classification accuracy.
- Designed and deployed an interactive FP Tickets Dashboard using Apache Superset, enabling the operations team to monitor 100+ support tickets in real time.

Chennai, Tamil Nadu,
India

Full-stack Developer Intern, BonTon Softwares Private Limited

07/2025 – 10/2025

- Built and deployed 3 production-level web applications including an AI-powered chatbot, an e-commerce platform, and a company prototype website.
- Developed responsive frontend interfaces using React.js (v19.2.0), HTML, CSS, Bootstrap, and JavaScript.
- Implemented RESTful backend APIs and MySQL database schemas to support dynamic application features.
- Reduced page load time by optimizing component rendering and database queries across all projects.

India

PROJECTS

Kaspon Techworks Intern Project Car Damage Assessment ,

11/2025 – 12/2025

Associated with Kaspon Techworks Private Limited

Built a deep learning-based computer vision system to detect and classify vehicle damage from images. Preprocessed and augmented a dataset of 500+ images, trained a CNN-based classifier, and evaluated model performance using precision, recall, and F1 score.

Tech Stack: Python, TensorFlow/Keras, OpenCV, NumPy, Matplotlib

Kaspon Techworks Intern Project FP Tickets Dashboard ,

11/2025 – 12/2025

Associated with Kaspon Techworks Private Limited

Designed a real-time data visualization dashboard to track and analyze 100+ support tickets.

Enabled filtering by priority, status, and date range for operations teams.

Tech Stack: Apache Superset, SQL, Python

Prototype Website for BonTon Softwares ,

07/2025 – 10/2025

Associated with BonTon Softwares Private Limited

Weather Monitoring System using Python [↗](#)

10/2024

Built a Python-based real-time weather monitoring tool that fetches live weather data via API and displays temperature, humidity, and forecast trends.

Tech Stack: Python, REST API, Pandas, Matplotlib

Virtual Assistant Using Python [↗](#)

06/2024

Developed a voice-enabled Python virtual assistant capable of answering queries, setting reminders, and performing web searches using NLP libraries.

Tech Stack: Python, SpeechRecognition, pyttsx3, NLTK

EDUCATION

Bachelor of Technology - BTech, Artificial Intelligence and Data Science,

08/2023 – 05/2027

Saveetha School of Engineering

Chennai, Tamil Nadu

Current CGPA: 9.08

TOP SKILLS

- | | | |
|--------------------|------------------------|----------------|
